More details of JBC 210 245 470 Soldering Heating Elements

JBC-210/245/470 soldering iron station, Mechanic C6 Mini heat-gathering honeycomb structure heating table, C6 heating platform for JBC-210/245 soldering tip.

Item Name: JBC 210 245 470

Material: Pure copper 99.99%

Color: Copper

Shape: Honeycomb structure (Hexagon)

JBC 210 245 470 Soldering Heating Element Features :

- ① All-in-one design;
- ② Seamless integrated, fast heat conduction, easy to tin
- ③ Lead-free environmental protection
- ④ Rapid heating
- ⑤ Nano electroplating, good oxidation resistance and corrosion resistance
- ⑥ long lasting
- ⑦ Easy to remove & install connectors/face ID cable. Used to IC reballing, flex cable repair and FPC soldering.

Application range:

JBC soldering iron/JBC soldering station/JBC mini repair heating system ect

FAQ

1. who are we?

Professional MCH Ceramic Heating Elements manufacturer /factory.

2. how can we guarantee quality?

Always a pre-production sample before mass production;

Always final Inspection before shipment;

3.what can you buy from us?

Ceramic Heater element,Heating Element,Ceramic Pellet Igniter,heater core,battery operated heater.

4. why should you buy from us not from other suppliers?

1.Factory

2.Employees 150~200

3.Customization are welcome

4.Month Capacity:550,000 pcs

5.Quick Delivery time from 1~30 days

6.Free Samples are available
